-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 3-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Uecker et al (2203113).

Uecker et al discloses a building method comprising furnishing a column (15) and beam (16) building frame possessing a load bearing portion which is defined by nodally interconnected columns and beams, at least one column(15) is formed as a hollow tubular structure, in the at least one column, substantially immediately above a nodal connection between the mentioned one column and a beam, an upper utility region which extend above and beyond the frame's load bearing portion, which region terminates in a nominally open, upwardly facing mouth (the opening which receives part 27) which opens to the hollow interior of the at least one column to define therewith a utility port, employing the defined utility port for reception and use of a building construction extension instrumentality selected from the list consisting of an installable/removable crane structure (25), furnishing the mentioned building frame with more columns (the other columns 15) each of which is formed as a hollow, tubular structure and providing in each of those more columns upper end utility regions, utilizing the frame of nodally interconnected columns and beams including the mentioned nodal connection which exists between the at least one column and the mentioned horizontally extending beam, furnishing direct load bearing support for any such base-seated crane (inherently capable of doing so).

Per claim 5, Uecker et al shows all the claimed method steps and the crane structure disclosed by Uecker et al is **employable** to manipulate to install another crane structure in an adjacent utility port.

***Response to Arguments***

3. Applicant's arguments with respect to claims 3-6 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art shows different column beam and crane building methods.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
